

INDEX

VOLUME VII, Nos. 1—12 (SEPTEMBER, 1956—AUGUST, 1957)

	PAGE		PAGE
A			
ABRIKOSOFF'S tumour or myoblastoma (congenital epulis) in a newborn infant -	169	BATES, J. F.: Simple mandibular dentures—a functional solution -	203
Abstracts 10, 17, 25, 26, 28, 41, 66, 75, 89, 90, 96, 97, 107, 112, 116, 148, 168, 171, 186, 209, 210, 226, 233, 261, 263, 268, 290, 295, 303, 311, 328, 345, 349, 360, 362, 363, 374, 379, 381, 394		BELL, DICKSON, G.: Clinical procedures in periodontal therapy -	187
Acrylic teeth, denture fractures resulting from occlusal wear of -	292	BERRY, D. C.: Denture fractures resulting from occlusal wear of acrylic teeth -	292
ACTH and cortisone in jaw development -	350	— and CHICK, A. O.: Temporomandibular joint: interpretation of radiographs -	18
Adrenaline in jaw development -	352	Biological considerations of instruments -	193
Adult teeth, the extraction of -	330	Bio-mechanical aspects of full dentures, some -	336
Aetiological factors in temporomandibular joint disorders, early recognition of -	218	Birmingham College of Technology -	90
Alveolar bone loss, calculus, and wear in the jaws of sixth-century Jutes -	301	BLACKMAN, SYDNEY: Hyperplasias, epulides, osteoclastomata: a radiological study -	98
Ameloblastomas and craniopharyngiomas, kionoblast-like cells in -	296	— Serial arthro-radiography for the examination of the temporomandibular joint -	227
American Dental Society of Europe: Clinical procedures in periodontal therapy, 187; Enjoying the child patient, 113; Relative values of the supports in partial denture prosthesis, 154; Some bio-mechanical aspects of full dentures, 336		— Tooth concussion: radiographic observations -	366
Anæsthesia, dental, modern considerations in -	259	Bone loss, alveolar, calculus, and wear, in the jaws of sixth-century Jutes -	301
— nitrous oxide-oxygen, using a Walton apparatus -	60	Book Reviews (see Reviews)	
Apparatus, modified, vacuum investing and the use of -	246	Breeding experiments—occlusion in sheep -	172
— for teaching orthodontics, modification of an -	341	Bridge, the spring -	120
Appliances, orthodontic, standard modifications of -	208	British Dental Association: A new type of clasp for partial dentures and orthodontic plates, 346	
ARDRAN, G. M., KEMP, F. H., and MUNZ, F. R.: Observations on the behaviour of full lower dentures. An X-ray cinematographic study, with special reference to the perspex tray impression method -	180	British Society of Periodontology, Proceedings of: Programme, 1956-7, 57; Annual clinical meeting, 1956, 77; Annual general meeting, 118; Alveolar exostoses, 82; Calculus, wear, and alveolar bone loss in the jaws of sixth-century Jutes, 301; A case of gross occlusal derangement, 267; Chronic localized periodontitis, 80; Chronic periodontitis with chronic periodontal abscess distal to 7, 82; Cost of <i>Proceedings</i> , 210; Gingivectomy (film), 83; Hereditary or idiopathic hyperplasia of the gums, 136; Instruments and technique for removal of subgingival calculus, 79; An investigation into the glycogen content of the gingivæ, 234; Long-term results of treatment, 78; Mandibular overclosure with traumatic lower anterior gingivitis, 79; Masticatory efficiency and periodontal disease, 2; Partial dentures and the restoration of masticatory efficiency, 375; Pigmentation of the gingivæ, 77; A pilot clinical investigation into the value of gramicidin in the treatment of Vincent's ulcerative gingivitis, 299; Reattachment following curettage: a histological study, 38, 81; Splint prostheses, 78; Subacute ulcerative gingivitis with deep crater formation in	
A.R.P.A. Internationale: René Jaccard prize -	202		
Arthro-radiography, serial, for the examination of the temporomandibular joint -	227		
ASHCROFT, G., and PAWSEY, P. M.: The extraction of adult teeth -	330		
ASKEW, P. A.: The training of dental hygienists in the Royal Air Force -	264		
B			
BALLARD, C. F.: A symposium on Class II Division 1 malocclusion. I. Morphology in relation to treatment planning -	269		
Band stretcher, orthodontic, an -	95		

British Society of Periodontology, Proceedings of:
—continued

3/3 region, 81; Symposium on instruments, I, Biological considerations, 193; II, Hoes and currettes, 197; III, Other instruments, 200; Table demonstrations, 77; Talking about saliva, 30; The training of dental hygienists in the Royal Air Force, 264; Traumatic occlusion (Class III occlusion), 80; Two cases of spontaneous regression of epantuin hyperplasia, 77; Undergraduate prize, 90

British Society for the Study of Orthodontics, Transactions of: The application of 8-mm. cine-photography to orthodontics, 207; Backward displacement of the proximal interphalangeal joints of the third and fourth fingers resulting from finger-sucking, 15; Early recognition of some aetiological factors in temporomandibular joint disorders, 218; Immediate torsion: a preliminary report on twenty-three cases, 108, 126; An interesting case of development; growth in width of the maxillary arch between 8-11-9 years, 287; The mandibular condyle: fifty cases demonstrating arrest in development, 160; Modifications of standard orthodontic appliances, 208; Nature and nurture in jaw development, 350; Report on a visit to the United States and Canada, 382; Speech and the orthodontist, 313; A symposium on Class II Division 1 malocclusion. I, Morphology in relation to treatment planning, 269; II, Treatment, 277 Thumb- and finger-sucking, 67

BROADWAY, E. S.: Backward displacement of the proximal interphalangeal joints of the third and fourth fingers resulting from finger-sucking - - - 15

— — Eosinophilic granuloma - - - 11

BURSTON, W. R.: A device for holding delicate specimens under fluid, either for observation under the microscope, for dissection, or for photography - - - 310

C

CALCULUS, wear, and alveolar bone loss in the jaws of sixth-century Jutes - - - 301

CAMPBELL, J. MENZIES: The Earl of Chesterfield and the teeth - - - 87

Canada and the United States, report on a visit to *Candida* infection, possible association with denture sore mouth and angular cheilitis - - - 212

Central Health Services Council - - - 24

CHAPMAN, C. E.: see **WATERSTON, W.,** jt. auth.

Cheilitis, angular, denture sore mouth and - - - 212

Chesterfield, the Earl of, and the teeth - - - 87

CHICK, A. O.: see **BERRY, D. C.,** jt. auth.

— — see **LYON, D. G.,** jt. auth.

Child patient, enjoying the - - - 113

Children's dentistry, clinical and practical views in

Cinematographic study, an X-ray, on behaviour of

full lower dentures, with special reference

to the perspex tray impression method - - - 180

Cinephotography, 8-mm., the application of, to

orthodontics - - - 207

PAGE**PAGE**

Clasp, a new type of, for partial dentures and orthodontic plates - - - 346

Class II Division 1 malocclusion, a symposium on - - - 269, 277

Clinical and practical views in children's dentistry - - - 92

— procedures in periodontal therapy - - - 187

Concussion, tooth: radiographic observations - - - 366

Condyle, the mandibular: fifty cases demonstrating arrest in development - - - 160

Congenital epulis (myoblastoma or Abrikossoff's tumour) in a newborn infant - - - 169

Continental Dental Society in London: Observations on the behaviour of full lower dentures. An X-ray cinematographic study, with special reference to the perspex tray impression method, 180

COOK, H. P.: A dilated composite odontome - - - 258

Coronoid process, fracture of the, during extraction of lower third molar - - - 262

Cortisone and ACTH in jaw development - - - 350

Courses for dental technicians - - - 28

Craniopharyngiomas, kionoblast-like cells in ameloblastomas and - - - 296

CROSS, W. G.: Instruments. II, Hoes and currettes - - - 197

— — Reattachment following curettage: a histological study - - - 38

— — and **YUKTANANDANA, I.:** The role of orthodontics in periodontal treatment - - - 388

Curettage - - - 194

— reattachment following - - - 38

— subgingival - - - 188

Curettes and hoes - - - 197

D

DECIDUOUS to permanent dentition, aspects of the transition from - - - 42

Dental anaesthesia, modern considerations in - - - 259

— canal, inferior, tooth root removed from the - - - 256

— hygienists, the training of in the Royal Air Force - - - 264

— infection, a case of mediastinitis following - - - 76

— surgery and the diabetic patient - - - 255

Dentistry, children's, clinical and practical views in

Dentition, deciduous to permanent, aspects of the

transition from - - - 42

— relationship of speech to - - - 317

Denture(s) fractures resulting from occlusal wear

of acrylic teeth - - - 292

— full, some bio-mechanical aspects of - - - 336

— lower, observation on the behaviour of,

An X-ray cinematographic study, with

special reference to the perspex tray

impression method - - - 180

— partial, and orthodontic plates, a new type of

clasp for - - - 346

— — and the restoration of masticatory efficiency - - - 375

— simple mandibular—a functional solution - - - 203

— sore mouth and angular cheilitis - - - 212

Derangement, gross occlusal, a case of - - - 267

DERRICK, DONALD: A syringe for rubber-base and

silicone impression material - - - 97

Device for holding delicate specimens under fluid,

either for observation under the microscope,

for dissection, or for photography - - - 310
